- The chair offers optimal comfort and firm support
- Can be paired with the ottoman within the same series/ collection for a versatile and comfortable seating solution
- Suitable for a wide variety of private and public environments
- Qualified for contract use

O2 LOUNGE CHAIR & OTTOMAN DESIGN BY JONAS FORSMAN

Designed for HAY by Jonas Forsman, the O2 Lounge Chair is a spacious and inviting seating option that uses minimal materials without compromising comfort, support, or aesthetics. Through innovative material processes and production techniques, the chair features a tubular steel frame with self-supporting, shrink-fitted fabric, forming a voluminous shape that adapts to the user's posture while providing firm support. Available in a range of frame and fabric combinations, it can be paired with the O2 Ottoman for a versatile and comfortable seating solution suited to a wide variety of professional and domestic settings.

Swedish industrial designer Jonas Forsman combines mechanical solutions with fabric and material exploration. Based in Gothenburg, he strives to reduce each product to its essence, creating functional, innovative objects that go beyond aesthetics. For HAY, he has designed the O2 Lounge Chair and Ottoman.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
