Box-Bed

SKU:

C01-017-01-S/M/L, C01-017-02-S/M/L,
C01-017-03-S/M/L

Description:

Keep your dog in the comfort they deserve while doing your bit for the planet. We are proud to partner with the SEAQUAL INITIATIVE to produce the Mare Dog Cushion. The cover of this environmentally friendly dog bed is made from certified SEAQUAL® YARN, a unique polyester fibre made from Upcycled Marine Plastic from our oceans, beaches and landfills.

Maximum comfort and sustainability are also guaranteed inside this dog bed. The filling consists of a special recycled foam with high restoring force, which remains elastic for a long time even with constant use. A pre-formed hollow in the middle of the cushion supports the natural curvature of your dog's body. The back and spine are cradled in the hollow while the head can rest comfortably on the slightly higher outer edge.

The Mare Dog Cushion comes in three colours: rock, sand and seaweed, inspired by the origin of the bed and chosen to complement any interior style.

Sizes, Dimensions & RRP:

S: 80 x 60 x 10 cm (L x W x H), RRP: 149,- Euro
M: 100 x 75 x 12 cm (L x W x H), RRP: 199,- Euro
L: 120 x 90 x 12 cm (L x W x H), RRP: 249,- Euro

Available Colors:

- Rock
- Sand
- Kelp

Material:

- Inner cushion: cotton blend fabric 60% Cotton/ 40% Polyester
- Foam parts: 100% Polyurethan
- Cover: 100% recycled Polyester

Foam properties:

- stable and durable
- climatising
- hypoallergenic
- permanently elastic

Care Instructions:

Inlett: 60° C gentle wash cycle

The cushion filling is made of extremely soft, open cell foam. To obtain the excellent properties of this material in the long run, the cushion should be maintained and cleaned accordingly.

The best cleaning procedure for the inner cushion is to laundry it with a commercially available mild detergents at temperatures up to 60° C. It is not recommended to use highly chlorinated and chemically aggressive washing additives. A brownish discoloration of the foam can not be avoided, but has no effect on the quality of the foam.

After washing and rinsing please remove as much water as possible through the spin cycle. The inner cushion can be best dried by air on a rack. It can also be tumble dried at 60° C, but please avoid over-drying.

Please plump up the inner cushion regularly so that it retains its fluffiness and shape.

Cover: 60° C wash cycle

The fabric is washable at 60 ° C or can be dry cleaned. After washing, best let the cover air dry on a rack. Do not put the cover in the dryer. If needed, iron the fabric at low level.

Please note that by intensive use the surface of the fabric may be roughened and lint nodules can form (so called pilling). This cannot entirely be prevented and is therefore no reason for complaint.

For simple and uncomplicated cleaning in between, simply vacuum the cover with an upholstery brush.
