Northern
OSLO — SINCE 2005

Precautions

1. Be careful when unwrapping the product, not to damage the surface.
2. The chair must be stored and used indoors only.
3. Make sure the chair is placed on a smooth surface.
4. Do not tilt while sitting on the chair.
5. Do not place sharp items directly on the seat.
6. Avoid placing the product in direct sunlight as it might affect the colour over time.
7. Chairs may appear slightly uneven when first delivered due to the tight, handwoven seat, but this will settle with use.

Cleaning and care instructions – metal frame

1. Wipe spills and stains immediately.
2. Clean using a soft, dry cotton cloth.
3. If necessary, a cotton cloth moistened with lukewarm water can be used.
4. Avoid applying strong cleaning agents as it may damage the surface.

Cleaning and care instructions – paper cord seat and back

1. If a spill occurs, gently dab the area with a soft, damp cloth. Do not rub, as this can push the liquid deeper into the fibers.
2. If necessary a mild, colourless soap solution can be used.
3. Avoid cleaning too often, as this may cause unnecessary wear.
4. Avoid applying strong cleaning agents as it may damage the surface.
5. To remove dust and other particles from the seat, use a vacuum cleaner with a soft brush attachment.

Additional info

Paper cord is a strong, durable material that typically requires little to no maintenance. It is treated with a thin wax layer to help resist stains. Brightly colored liquids like red wine or fruit juice may still cause discoloration. Deep-coloured fabrics, such as new denim, can transfer dye onto the cord. A seat cushion can help protect against this. Over time, the cord will develop a natural patina.
