FRAME COLLECTION
Designed by *Mogens Lassen*

Frame is a design in constant motion. The adaptable collection of modules can be configured in myriad ways – as a standalone sideboard, wall-mounted cupboard, practical room divider and more.

Created in 2013, Frame looks to the lines of designer and architect Mogens Lassen's geometric Kubus candle holder for its inspiration. Scaling up Kubus' proportions and adding sides, doors, drawers and shelves, each perfectly proportioned Frame module is made to meet every need and suit any space.

The award-winning collection offers flexible storage solutions with enduring appeal. Crafted with the greatest precision, the Frame modules can be hung on a wall or set on a floor with a corresponding stand. Offered in melamine in a range of neutral hues, as well as oak, smoked oak or black stained ash, modules unite function and form with high-quality materials. Frame is crafted by hand in Denmark.

About the designer

Considered one of Denmark's greatest and most influential architects, Mogens Lassen (1901–1987) pioneered Danish Functionalism, taking his cues from Bauhaus sensibilities. His interior designs are a natural continuation of his architectural approach and add energy and atmosphere to everyday living spaces and tasks. From decorative objects to larger furniture designs, each delicately balances presence with practicality, and without drawing undue attention to find its natural place in any space.
