Product description:

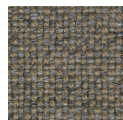

Extra comfort and style. The bench can be complemented with a cushion upholstered in Hallingdal fabric, adding both comfort and style. Hallingdal 65 is a classic wool textile with an updated colour palette and a traditional pattern. The fabric is made from 70% pure new wool and 30% viscose. The wool ensures excellent durability and flexibility, while the viscose adds lustre and depth to the colour. Both fibres are dyed before spinning, enhancing the fabric's rich texture.

The fabric, Hallingdal 65, 0227, was developed in collaboration with Kvadrat.

Designer's thoughts:

"With the cushion we wanted to underline the slender and elongated expression of the bench. By placing the cushion loosely upon the seat, the visibility of the fine materials remains intact." – Herman Studio
