Handle Vase is designed by the Danish architect Eva Harlou. With the same original design language as the Double Bottle the Handle Vase offers an original yet functional way of arranging flowers and easily set a beautiful table.

The vase is hand blown in borosilicate glass and rests elegantly on a foot of FSC certified oak that allows to play with positioning of the flowers. The handle further allows the vase to hang in displays and decorative setups.

The oak wood is sustainably sourced from well-managed forests and thereby honouring the UN Sustainable Development Goals of protecting “*Life on Land*” (SDGs 15) and “*Responsible Consumption and Production*” (SDGs 12) and supporting “*Partnership for the Goals*” (SDGs 17).
