

Frame

DESIGN
Donegani & Lauda
2015 - 2017

La struttura è composta da due elementi in alluminio estruso: uno esterno a forma di anello e uno interno a forma piramidale che permette la diffusione simmetrica della luce verso l'alto e verso il basso. Ispirata all'idea di una maniglia fissata a muro, Frame offre un'elevata performance luminosa.

The structure consists of two extruded aluminium elements: an outer ring-shaped element and an inner pyramid-shaped one that allows the symmetrical diffusion of the light upwards and downwards. Inspired by the idea of a wall-mounted handle, Frame provides high light performance.

DE Die Struktur besteht aus zwei stranggepressten Aluminiumelementen: einem äußeren, ringförmigen Element und einem internen, pyramidenförmigen Element, das die symmetrische Abstrahlung des Lichts nach oben und unten gestattet. Frame inspiriert sich am Gedanken eines an der Wand befestigten Griffs und bietet hohe Lichtausbeute.

FR La structure se compose de deux éléments en aluminium extrudé: un élément externe en forme de bague et un élément interne de forme pyramidale, qui permettent une diffusion symétrique de la lumière vers le haut et vers le bas. Inspirée par l'idée d'une poignée fixée au mur, Frame garantit de performance lumineuse très élevées.

ES La estructura está compuesta por dos elementos de aluminio extrudido: uno exterior con forma de anillo y otro interior con forma piramidal que permite la difusión simétrica de la luz hacia arriba y hacia abajo. Frame, inspirada en la idea de una manija fijada en la pared, ofrece un elevado rendimiento luminoso.
