## ***STORYTELLING***

### ***GLOBE HANGING FLOWERPOT / BY AYTM DESIGN TEAM***

Hanging plants are a sculptural way of using nature as decorative elements for your home. In its signature shape and classic colour, and with its beautiful details, the GLOBE hanging flowerpot gives your plants a sophisticated lift with an exclusive finish.

We recommend using fishing line for hanging and styling, as it creates a gorgeous floating illusion of the flowerpot, which is ideal for flowers in the living room or with fresh herbs in the kitchen.
