# SPLINE PENDANT LIGHT 4,5M

DESIGNER: DAVID DERKSEN

YEAR: 2025

2 YEARS WARRANTY

MATERIAL: POLYESTER, SILICONE, ALUMINIUM, FABRIC

Spline is a versatile LED pendant light designed for both indoor and outdoor use. Combining a festive yet minimalist aesthetic, it features colorful textiles and a continuous light strip. Available in two bicolor models (brown/orange and beige/blue), each spanning over 4.5 meters. The modular design allows each part to be

removed, replaced, or customized. Two 2.5-meter ropes adjust the pendant light's curve, making it adaptable for ceiling mounting or wrapping around trees. Every detail, from the satin-finished LED strip to the hardware, is crafted with precision.
