Description:

Dogs like to lick! With the Volpe activity toy you will make their world even more interesting and add some spice to everyday life. The stylized fox shape with corners and curves challenges your dog and provides a constantly new licking experience with it's two sides and different patterns.

Licking mentally stimulates your dog, promotes concentration and reduces stress. Serve Volpe with raw, wet, dry or liquid dog food or with yogurt and purees. Smaller treats can also be put between the raised plus signs.

The minimalist design of the toy was created by the Danish design team Hans Thyge & Co and makes Volpe a beautiful accessory, also for the dog owner. In its muted colors Slate, Nude and Dusty Green, Volpe perfectly matches with other products from the MiaCara collection.
