Dimensions:

W: 35 cm / 13.8", H: 45,5 cm / 17.9", D: 28 cm / 11" Seat H: 45,5 cm / 17.9"

Product description:

Remake Stool is made from recycled beverage cartons in a special process that allows for a mix of materials, such as paper, plastic and aluminium, which can be recycled again and again. The material is a low-carbon, fully circular and excellent alternative to traditional furniture materials and thus a sustainable choice.

The strong, stable and versatile stool aligns with the principles of the circular economy and helps reduce the amount of waste generated in the furniture industry. Using the same screws, tools, methods and skills as wood, the stool has strong joints and a surface treatment suitable for any environment. Among its many sustainable properties, the product reduces CO2 emissions and is 100% recycled and 100% recyclable. It contains no additives, VOCs or formaldehyde. The production generates no waste, uses no water and has zero emissions.

Designer's thoughts:

'It was interesting to work with a brand new type of material, which is completely directionless. The fact that the material has the same expression in large surfaces and edges lends the stool an almost monolithic expression. Like wooden products, each stool is unique, because the material has a very varied appearance from batch to batch.' – Jonas Herman, Herman Studio

Finish:

Recoma packwall:
100% recycled
packaging waste

Made-to-order:

Non-standard configurations (special colours etc.) are available upon request at a minimum order quantity.

Product type: Stool

Environment: Indoor

Material: Recoma packwall: 100% recycled packaging waste

Country of origin: Bosnia Herzegovina

Net weight: 8,8 kg / 19.4 lb

Designed by/year of design: Herman Studio, 2024

Pre-assembled: No, consist of 4 parts.

Contract use: Yes

Scope of application: Stool, side table, bedside table, coffee table

Warranty: Form & Refine provides a five-year product warranty

Care guide: Clean with fibre cloth - no water
